LOWER SAVANNAH WIOA INSTRUCTION NUMBER: PY’16-002, Revision #4

TO: See Distribution List

ORIGINAL DATE: October 5, 2016

EFFECTIVE DATE: Immediately

REVISE DATE: January 2, 2020

SUBJECT: POLICY and PROCEDURES GOVERNING SUPPORTIVE SERVICES ASSISTANCE ON BEHALF OF WIOA PARTICIPANTS

PURPOSE: The purpose of this Instruction is to provide information and guidance to Lower Savannah Workforce Development Area (LSWDA) sub-recipient organizations regarding the region’s Policy and Procedures Governing Supportive Services Assistance on behalf of Workforce Innovation and Opportunity Act (WIOA) Participants. Replaces PY’01-009 and all subsequent revisions.

BACKGROUND: The LSWDA routinely issues Instructions to its sub-recipient organizations regarding Policies and Procedures for handling various situations relating to Workforce Development within the Region. The Region’s current policy and procedures for implementing Needs-Based Supportive Services under provisions of the Workforce Investment Act of 1998 are outdated. As such, this Instruction supersedes all previous Instructions relating to the Region’s Policy and Procedures Governing Supportive Services Assistance on behalf of WIOA Participants and adds guidance for the issuance of Needs Related Payments.

POLICY: Under provisions of the Workforce Innovation and Opportunity Act, needs-based or supportive services payments may be issued on behalf of adults, dislocated workers, and youth. Guidelines and some additional requirements are listed below. The ability to make supportive services payments on behalf of any WIOA participant is based on the availability of WIOA funds.

Determination of need for Supportive Services: Supportive Services will only be available for those participants enrolled and actively participating in a training program, to include follow-up for Youth participants. Supportive services other than those required by the employer to complete the training, will not be approved for On-the-Job (OJT) participants. Participants are eligible for Supportive Services only if the customer is unsuccessful in obtaining services from other community agencies. Case Managers must document all efforts to secure services through non-WIOA sources, including a determination for what services the customer can access through his/her support network.

An Equal Opportunity Employer/Program. Auxiliary aids and services are available to individuals with disabilities upon request.

Note: All participants in receipt of WIOA Supportive Services payments must have a properly updated and current (signatures of participant and case manager) Supportive Service Assistance Payment Log in the participant’s hard file/folder.

TRANSPORTATION

When it has been determined that a customer is unable to attend a WIOA training activity due to lack of transportation, the Career Services Case Manager can provide or procure transportation. The Case Manager should attempt to arrange transportation through other community agencies or a private provider. Public transportation should also be utilized when available. The Case Manager also may choose to pay an individual selected by the customer to provide transportation. Prior to any agreement, the customer should verify and provide evidence to the Case Manager that the private individual has a valid driver’s license and insurance. The Career Services Provider should have an agreement with the transportation provider specifying the cost and reimbursement arrangements. Transportation services should be provided on a temporary basis while the customer and the Case Manager develop plans for the customer to provide his/her own transportation.

Customers who own a vehicle or have access to a vehicle may receive assistance to help with the out-of-pocket expenses associated with participation in training. The Case Manager must verify that the customers are driving and determine the actual number of miles traveled each day. The Career Services Provider is required to maintain adequate source documents to support transportation costs. The Career Services Provider must also ensure that the travel costs are expended only for the actual days the customer participates in an actual training activity.

Transportation Reimbursement:

* Transportation allowance is provided for miles traveled to and from the training site from the participant’s residence, in accordance with the participant’s semester schedule.

If a customer who is driving to the training site agrees to transport another WIOA customer, the driver may be reimbursed 50% of the daily allowance for each additional customer. The Career Services Provider must verify that the driver is actually transporting the customer(s). The verification may be as simple as a statement such as “I certify that I provide transportation for
______", and list the customer(s) name, last four of the SS#, and the total miles transported per trip, documented by MapQuest or Google Maps. The customer who is driving and the customer(s) who are being transported should sign the statement. On-the-Job Training (OJT) participants are not eligible for transportation reimbursements.

**Note:** Gas cards on hand at given time cannot exceed $2,000.

**CHILD CARE**

Due to the limited amount of WIOA funds it is important that the Case Manager exhaust every possible means to provide child care through other community resources. If it is determined that there are no other means of providing the child care and that child care is necessary for the customer to participate in training activities, then child care assistance may be provided.

Child care payments will be made directly to the service provider. Documentation and/or invoices must be secured and maintained by the Career Services Provider. To pay child care costs, the Career Services Provider must secure from the provider an itemized invoice showing the name(s) of the child or children; the name of the parents; time and dates covered; and total charges. Payment of child care costs must be linked to the customer’s attendance. **Late fees cannot be paid with WIOA funds.**

Child care assistance can be provided for a child up to the age of 14 years old. It may be permissible for a participant to use a family member to provide the child care. However, when utilizing a family member, the participant must sign a statement indicating that they have explored all other options for child care and the only available option is the family member, i.e., grandmother. A statement shall be signed by the family member that reads “I certify that I provide child care for _______, and list the customer name and last four of the SS#. The family member providing the child care must be no less than 18 years of age as proven by the inspection and filed photocopy of a state or federally issued photo identification card. If WIOA funding becomes limited the case manager will work with the customer to develop a transition plan.
Payments for child-care shall not exceed $20 per day, per child and shall not exceed $30 per day for two or more children. Child care assistance is paid only for training attendance in accordance with the participant’s semester schedule.

**NOTE (pertaining to Youth participants only):** Supportive services can be issued during follow-up services ONLY if the need for supportive services is identified as an emergency during the follow-up period that would otherwise keep the Youth participant from continuing postsecondary education and training and/or work or remain employed.

**NEEDS BASED OR EMERGENCY SUPPORTIVE SERVICES**

Financial assistance for Adult customers registered in WIOA funded training may be provided to enable the customers to participate in the training activity. To be eligible to receive need-based payments Adult customers must meet the following criteria:

1. The assessment results and the Individual Service Plan must justify the need-based payments as necessary for the customer to achieve the employment goals.

2. The customer was unemployed and economically disadvantaged in accordance with the Lower Living Standard Income Level or receiving cash public assistance including Food Stamps, at the time of registration.

3. The assistance is not available through any other community agencies.

Maximum needs-related payment during any program year is **$500.** Any amount above **$500** must have approval of the WD Administrator.

**What types of established and documented needs may be covered by needs-based supportive services payments?**

There is no all-inclusive list of reasons or situations for which needs-based supportive services payments can be made; however, the need or situation must meet the following criteria:

a. must have been established during the comprehensive assessment process; and

b. must have been identified on the WIOA Participant’s Individual Employment Plan (IEP); and

c. must be considered a temporary transitional service and not intended as a long-term service; except when the need or situation is determined to be an emergency or unforeseen event that occurred after WIOA participation for which the WIOA Participant had little or no control over.
